To: UUCGT Board of Trustees  
From: Judy Myers, past Stewardship Chair  
Subject; New chair for Stewardship

As you grapple with many new ideas, issues and commitments, I want to make sure that you understand that UUCGT needs a new Chairperson for the Stewardship committee.

I have expressed to the previous Board that the role of 'Stewardship' needs to expand to encompass many other aspects (ask Karl for a copy of my memo about this from several months ago), but even if those kind of larger changes are not made, a chair still needs to be appointed pretty quickly, as there is a great deal of planning involved in running a successful campaign.

I am perfectly willing to turn over any and all correspondence, documents and the memory stick that I maintained that has just about everything on it that we did for the past two years. I will delete copies of the data spreadsheets that the Stew Crew Chair receives monthly, as that is highly confidential financial information and cannot be shared without a waiver.

I will also train the new person on how to use the new email and automated pledging system we created two years ago. However, I would like to get this all done before fall. I hope you can find someone and then have them contact me in August so that I can turn everything over and they can get their committee organized sooner rather than later.

If you are not going to do any structural changes to the overlying logic of what 'Stewardship' really should be, I suggest you change the name of this committee to reflect somehow simply that they are only functioning as the Pledge Drive committee.
